ACOL Delivers Link Juice

The term “*Link Juice*” basically refers to a search engine’s “trust” conveyed by an external link from another website to your own website. How relevant is the content on the referring site to the content on your own site? Is the referring site considered to be a HIGH valued site that will boost your site’s search ranking and exposure or drain it?

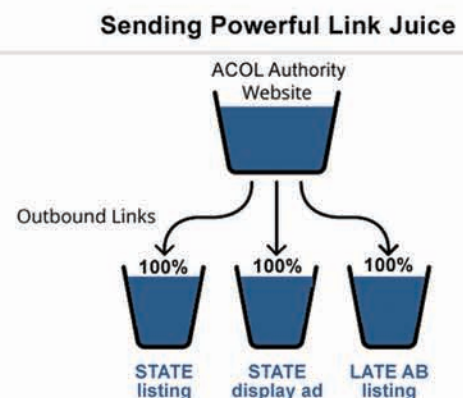

Since 1995 Abortion Clinics Online continues to be an “**abortion authority**” site with dozens of internal and external links to/from “abortion” related sites with tons of relevant abortion content. As a result of this, ACOL has been a HighPage site for nearly two decades. Therefore, our directory is an excellent source of “*Link Juice*” to your site which results in more patient referrals.

ACOL’s Link Juice will be passed along to your website via the outbound links attached to abortion clinic’s listings and/or display ads posted on the ACOL directory.

The Valuable Link Juice flowing from ACOL’s website is interpreted as a “vote” of recommendation toward your site to drive up your search engine ranking and bring more visitors to your website, thus more patients.

Every time you sign up for a link with us, you are increasing your power with Google.

We legitimize your site when we link to you.

Get VALUABLE Link Juice today -- Call us for details.

ACOL (abortionclinics.com) is the world’s FIRST and LARGEST online directory for abortion clinics. Over 8 MILLION women have searched the ACOL directory for an abortion clinic nearest them.
